Canada's anti-spam legislation

CASL was created in 2014 to reinforce best practices in email marketing and combat spam and related issues. These issues include identity theft, phishing and the spread of malicious software, such as viruses, worms and trojans (malware). The legislation has made a positive difference. When CASL took effect in 2014, Canada was home to 7 of the world's top 100 spamming organizations. By 2017, there were only 2. To be in accordance with Canada's anti-spam legislation, we agree to the following:

- Obtain consent to send commercial electronic messages.
- Keep our records updated and offer an unsubscribe option.
- Monitor third-party email marketing services for compliance.
- Honor opt-out/unsubscribe requests quickly.
